Executive Summary

Seasoned cybersecurity executive with a proven record of building and leading global security programs at scale across consulting, analytics, and regulated industries. I architect enterprise-grade security strategies that reduce risk, enable business velocity, and support innovation across complex, high-growth environments. Experienced in aligning security with M&A activity, global certifications, and emerging technology risks.

CORE LEADERSHIP COMPETENCIES

- Enterprise Risk & Assurance Strategy
- Third-Party Risk Management (TPRM)
- Global Security Certifications (ISO, SOC, HITRUST, MLPS, CMMC, TISAX)
- Continuous Controls Monitoring
- Audit Readiness & Evidence Frameworks
- Cross-Functional Leadership & Governance
- Regulatory Compliance (HIPAA, EU AI, GDPR, CCPA, CMMC)
- Board & Executive Risk Communication
- AI Governance & Trust Modeling
- Security Program Transformation

Professional Experience

Boston Consulting Group (BCG)

Senior Director – Information Security Risk Management | Jun 2021 – Present | Atlanta, GA

- 2025–Present: Lead the Global Security Audit Verification and Enablement function — overseeing third-party risk management, internal controls assurance, and global security certifications. Shape the firm’s security and risk strategy across its third-party ecosystem. Deliver real-time assurance and oversee ISO 27001, ISO 42001, SOC 2, HITRUST, and region-specific compliance across Europe, MENA, and APAC.
- 2021–2024: Led the Business Information Security Officer (BISO) function globally across Specialty Business Units (SBUs), including several highly regulated incubators, and held responsibility for security integration during mergers and acquisitions (M&A). Drove security strategy across diverse, high-growth environments within a complex matrix. Led BCG’s first global ISO 27001 certification, establishing and certifying the ISMS across all offices worldwide.

McKinsey & Company

Chief Information Security Officer – Healthcare Analytics & Delivery | Jun 2017 – Jun 2021 | New York, NY

- Served as entity CISO for a global healthcare analytics practice of ~500 data scientists, engineers, and consultants. Directed security strategy for regulated data platforms, enabling compliance and resilience across a global operational footprint. Led implementation of advanced controls in support of HIPAA, ISO 27001, and client assurance requirements.

KPMG US

Manager, Cybersecurity Services | Oct 2015 – Jun 2017 | Phoenix, AZ

- Delivered cybersecurity transformation programs for clients in healthcare, financial services, and tech. Led ISO/NIST-aligned assessments, GRC implementations, and security architecture for M&A and cloud initiatives.

EY

Manager / Senior Consultant, Cybersecurity Center of Excellence | Oct 2012 – Oct 2015 | La Jolla, CA & Phoenix, AZ

- Led ISO 27001 and HIPAA readiness engagements, security control design, and DLP implementations across global clients. Promoted to lead delivery teams and serve as primary client advisor on strategic security programs.

Independent Consultant (American Express)

Cybersecurity Consultant | Nov 2010 – Oct 2012 | Phoenix, AZ

- Supported the CISO office with enterprise security improvements including risk assessments, audit preparedness, content filtering, and reporting.

Education & Certifications

- B.A. in Communication Studies – Arizona State University
- Certified Information Security Manager (CISM) – ISACA
- Certified Information Privacy Technologist (CIPT) – IAPP
